

# 420 GP Series 2022

## Overview

We are running 2 GP series in 2022. They consist of Open Meetings designed to improve sailors skills to be able compete at Championship events at their full potential.

The first GP series will be 5 events from February until August and results will be ranked from the best 3 event results for the same helm/crew combination. This is the Spring GP and comprises GP1 to GP5.

The second GP series will run in the Autumn, it will be 3 events and results will be ranked from the best 2 events for the same helm/crew combination. This is the Autumn GP and comprises GP6 to GP8. GP 8 is planned to be the results from the first day of the End of Season Championships and there will be a prize giving on the Saturday evening of that event.

The separation into 2 series is to recognise the timing at which new partnerships are often created and the inclusion of results for the same helm/crew combination is to encourage and recognise the progression and development of partnerships.

## Results

Results will be recorded on a low points basis. If a team doesn't attend an event they will score +1 of the attendees at that event. Ties will be broken in accordance with RRS Appendix A.

No registration is required to compete in the GP series beyond entering the relevant Open Meetings.

In the unfortunate event that all GP events cannot be held then event to count are as follows:

- 5 events, 3 to count
- 4 events, 2 to count
- 3 events, 2 to count
- 2 events, 2 to count
- 1 event, 1 to count

## Events

Event	Date	Venue
